

Occupational Health & Safety Workshops

Employer Strategies for Young Workers

As an employer, you are aware of your obligation to protect the health and safety of your workers. If those workers include youth, it can be extra challenging to fulfill that obligation. This session offers support to employers and supervisors with youth in their midst, and includes ideas for training and supervision, successful strategies for communicating with youth, and youth resources available to PEI employers. (2 hours)

Charlottetown: February 2, 2017
Summerside: February 1, 2017

Incident Investigation

The main goal of an incident investigation is to find the root cause rather than fault. The next goal is to prevent a reoccurrence. This workshop will look at how investigating properly can prevent future incidents, save money, reduce human suffering, and work towards continuous improvement in maintaining a safe and healthy workplace. (2 hours)

Charlottetown: February 15, 2017
Summerside: February 22, 2017

Due Diligence for Managers and Supervisors

This seminar presents a thought-provoking video to demonstrate the importance of giving workers adequate training and supervision, followed by group discussion and real cases. Participants will learn about their safety responsibilities and discuss ways to exercise due diligence on the job. For owners, directors, managers and supervisors. (1/2 day seminar)

Charlottetown: March 16, 2017
Summerside: March 8, 2017

Safety Committee Basics

Do you have a safety committee at your workplace? Do you have new members in need of orientation or more seasoned members in need of direction? This workshop will outline the basics of a safety committee's intended purpose under early health and safety legislation, committee duties, meetings, minutes, recommendations, rules of procedure and measuring successes. (1/2 day)

Charlottetown: April 19, 2017
Summerside: April 20, 2017

Workplace Inspections

This session will introduce the components of effective workplace inspections. Inspections are a planned comprehensive walk through of an entire area of the workplace. The goal is to identify potential hazards in a given scenario and be proactive in order to prevent incidents. What to look for and what to do when a hazard is identified will be reviewed and discussed. (2 hrs)

Charlottetown: March 30, 2017
Summerside: April 6, 2017
Central Bedeque: June 7, 2017
Montague: June 8, 2017
Alberton: June 14, 2017
Souris: June 15, 2017

Hazard & Risk Assessment

The *Occupational Health and Safety Act* requires the employer to inform their workers and supervisors of the hazards at each workplace, and workers have the right to know how to be protected from those hazards. Participants will receive instruction on the steps and goals of hazard and risk assessment and will practice documenting assessments through a given scenario. (2 hours)

Charlottetown: May 17, 2017
Summerside: May 25, 2017

Workplace Services Workshop

Return to Work

Return to work (RTW) programs benefit both the employer and the injured or ill worker. A well-defined RTW program provides the framework to create successful, individual RTW plans to assist injured or ill workers safely return to work as they recover.

This workshop will assist you in establishing an effective RTW program; understanding your obligations to accommodate an injured or ill worker; and help minimize employer costs through an effective RTW program, thereby promoting a safe, accessible and healthy workplace.
