

Occupational Health & Safety Service Providers

DISCLAIMER

The purpose of this list is to provide assistance to employers in locating service providers in a specific area. The information contained on this list has been supplied by the service providers themselves and the inclusion of a service provider's name on the list does not imply an endorsement or recommendation by the Workers Compensation Board (WCB) of that service provider. The WCB makes no warranty as to the accuracy or completeness of the information or to the competency of any service provider. The WCB assumes no liability for any damages or loss suffered as a result of any inaccuracy or incompleteness therein or any failure on the part of any listed service provider. Anyone contemplating engaging any service provider on this list should make their own inquiries and make their own decision with respect to the ability and suitability of anyone on this list to provide the services that the listed service providers purports to provide. It is suggested that the reader review the points raised in the document, determining an OHS Service Provider's Qualifications, when choosing a service provider. The WCB reserves the right to remove any service provider from this list in its absolute discretion. This list is subject to change at any time.

The companies listed provide occupational health and safety services in Atlantic Canada and are listed by service type. Where company website links are not available, a telephone number is provided.
