

# FARM SAFETY CHECKLIST

---

## Tool Safety

<b>Date inspected:</b> <b>Inspected by:</b>	OK	NO	<b>If No, document any deficiencies/irregularities                      and note any remedial actions and date taken</b>
Is access to and from work spaces free of obstructions?			
Are all hand and power tools in proper working order and equipped with proper shields and guards?			
Are all stationary power tools grounded and all portable power tools either double insulated or of the three-wire grounded type?			
Are portable power tools always disconnected when not in use?			
Are all stationary tools such as grinders and saws properly shielded and the shields always in place when in use?			
Are hand tools (especially cutting tools like saws, axes and knives) properly stored so they cannot fall or be brushed against accidentally?			
Are all hand-tools (such as axes, picks and sledgehammers) in good condition such that, for example, they have tight-fitting and splinter free handles?			
Is your welding area well-ventilated?			
Are work areas well lit?
